ANGLICAN ANNIVERSARY APPEAL 1888---1928

Bishop Sherman of Calgary

The Diocese of Calgary is celebrating its Fortieth Anniversary by raising \$40,000 by special appeal to all Anglicans in the diocese.

The Campaign Commences
SUNDAY, OCTOBER 7

A mass service of all Anglican churches will be held on Sunday evening in Calgary, and will be broadcasted by Radio. A forceful address will be delivered by Bishop Sherman, Canada's youngest bishop.

This service will be heard over the radio in
ST. ALBAN'S CHURCH
SUNDAY EVENING, OCT. 7
at 7.30 p.m.

All Church people and friends are invited to attend, and receive the benefit of the inspiration which this service will afford.

A collection will be taken in aid of the Anniversary Appeal

Inserted by the Vestry of St. Alban's Church

Campaign Launched To Place Calgary Diocese on Sound Financial Basis

Bishop Ralph Sherman is Vitalizing Force in Efforts to Adequately Provide for Repayment of Indebtedness and to Provide Adequate Support for Clergy of Diocese--Mass Service to be Broadcast--Will be Heard in St. Alban's Church

The church is a necessary force in everyday life. Men invest money in land, in houses, in motor cars and many other things that provide comfort and enjoyment.

They are to be asked to invest some money in the church, and Bishop Sherman will launch an appeal in Calgary on Sunday which will be broadcast throughout the province of Alberta, urging all Anglicans to contribute as liberally as their means will permit towards raising a fund of \$40,000, to be used in placing the diocese' funds on a sound basis, and to provide insurance and superannuation funds for the clergy in Calgary diocese, of which he took charge less than two years ago.

The fairness and business-like aspect of the appeal will impress itself on all who claim allegiance to the Anglican church. It has often been remarked that there are the faithful in every church who stick to it through adversity and help to raise the necessary finances, while there are other so called members whose only acquaintance with the church is probably when they are married and when they are buried.

It is a fact that there are hundreds in Calgary diocese who, though the church is ready to minister to them in sickness and sorrow, do not realize their share of responsibility, but they will all be given an opportunity to share in this appeal. The great majority will perceive the fairness and the sound business aspect of the appeal.

The clergy minister to the spiritual needs of the people, and the people must in turn see that the necessary financial support is forthcoming, or no man can live by bread alone.

In Coleman a committee of ten canvassers has been organized. They will secure the name of every church member, and a thorough canvass will be made following the opening day, Oct. 7. These men are giving their time because they realize the importance and necessity of the appeal, and they should receive the co-operation of the people here.

The radio service will be heard in St. Alban's church at 7.30 p.m. and all church members and their friends are urged to attend. Bishop Sherman will be heard at this service, and there will be some singing by the massed choirs of Calgary churches.

On Sunday last Mr. Heas, a business man of Calgary, addressed the congregations on the appeal, and at Lethbridge Mr. J. H. Woods, president of the Calgary Herald, addressed the Anglican congregations.

Bishop Sherman is one of the outstanding men of the Anglican church, and his efforts to place this diocese on a self-supporting basis will meet with the approbation of all church members. By supporting his appeal Anglicans can give him the kind of support that will please him most and lighten his labors.

LOCAL STORE CHANGES HANDS

Business of H. E. Gate Sold to Calgary and Blairmore Parties--Possession Taken Immediately

It will come as a mild surprise to many to learn that the ladies wear business operated by Mrs. H. E. Gate for the past five years has been sold to Roland Laslett, of Calgary, and John Kerr, of Blairmore. Mrs. Gate will take over the Southern Alberta territory for the Spirella Comet Co., she having formerly travelled in the western provinces for this company.

Mrs. Gate will continue to make her home here, and will retain the fire insurance business for which she has been agent for a considerable time.

Mr. Laslett, one of the purchasers of the business, has been a traveller for a well known dry goods house, and intends to take over the active management of the business. Mr. Kerr, who is associated with him in the purchase, is well known as a merchant of Blairmore, where he has been established for the past three years.

In retiring from the business here, Mrs. Gate expresses her appreciation of the business from Coleman people, and bespeaks the same good support for her successors.

The store will be closed during the next three days for stocktaking.

Local News

The W. A. of St. Alban's held a whist drive on Monday evening, and though only a small number were present, owing to it not being sufficiently well known, a very enjoyable evening was spent.

The whist drive held in the K. P. hall on Monday evening was taken part in by about thirty people. A series of these gatherings will be held at intervals during the winter. The prize winners were Mrs. Garrett, Mrs. McCulloch, Mr. J. McArney and Mr. J. Rushton.

Douglas Fairbanks in The Gaucho will draw big houses at the Palace on Friday and Saturday evenings. This picture is of that rare virile type which has made "Dough" famous. With a roaring comedy and the ever popular Fox Weekly news reel, this week-end program will prove more than usually attractive.

Sem's Service Station is head quarters for the Kolster radio sets, and one will be demonstrated in St. Alban's church on Sunday evening, on the occasion of the mass service in Calgary, to good effect. The appeal for the \$40,000 anniversary appeal for the Diocese of Calgary it commences at 7.30 p.m., and an inspirational address in support of the appeal will be delivered by Bishop Sharman.

Coleman School District.

ORCHESTRAL CONCERT SUN, OCT. 14

Promises to be Exceptionally Good
...Fine Program Being Arranged by Executive

On Sunday night, Oct. 14, the Coleman Orchestral Society will hold a grand concert of vocal and instrumental music, which promises to excel anything yet held in the Pass in the musical line.

For several months under the leadership of Mr. John Crawford, the musicians have been practising and judging by the sounds of melody that are heard quite frequently at the hall where they practice, they are making splendid progress.

In addition to the orchestral program, several first-class singers have been secured from the local talent of Coleman, Blairmore and Hillcrest, so that the public are assured a very good program.

The concert will be held following the church services on October 14, at 8:30 p.m.

Mike Korman wishes to thank the Citizens Band for their attendance at the funeral of Mrs. Korman, their kindness being greatly appreciated.

Mrs. Rushton returned on Saturday morning from a visit with friends at Piapot, Sask.

Real Foundation of Modern Business

The so-called practical man of business, the financier, the farmer, during the many decades of the past has been inclined to regard the scientist as hopelessly impracticable; a dreamer, a faddist. Within more recent years marked change in this respect has taken place, and today the scientist, the chemist, the laboratory research worker, is recognized as among the most practical and essential of the world's workers.

To the great universities of the world, and to Governments must be credited in large degree the recognition now accorded to the scientist, while many of the world's foremost industrial concerns now regard their research departments as among the most profitable departments of their great enterprises.

A recent article by Dr. E. L. Free, in "Chemical Markets," New York, declares that science earns for the United States more than thirty billion dollars a year, or nearly half of the national income. It has, he says, doubled the productivity of agriculture and more than quadrupled that of mining. Continuing, Dr. Free wrote: "Surely the business men of America ought to be convinced by now that it is worth while to exhaust every one of science's industrial resources; yet the surprising fact is not only that these resources are unexhausted, but that only a small fraction of them have been put to work. Not a truth of the facts that scientists know are being used. The rest of them lie idle in the heads of professors or in the unread pages of scientific books."

Sometime ago a gentleman named Dudley became a chief chemist of one of the large American railways. He devised methods of testing coal and coke, which saved the steel millions of dollars in his rail road. He helped the steel people find out how to make more lasting rails. He invented cheaper and better paints. He suited the available water supplies to the engines, and saved millions of boiler tubes from being burst out or corroded. It is estimated that the scientific improvements devised by Dr. Dudley and his successors or other railways have saved more money than all the railroad wages ever paid in the United States.

Sometimes a scientific problem solves itself as if by magic. The origin of the potash industry is an example. The salt miners of Germany a generation ago were bothered greatly by some bitter, evil-tasting stuff mixed with the salt they were trying to mine. This bitter stuff had to be taken out, but if they piled it up whenever the rain always washed it down into the river. The salt miners were told that the poison was found in the great depths. Dr. Jesius, of Lüding, happened to hear about this worthless stuff. He found out there was potash in it. He knew that crop plants need potash—that it could be used as a fertilizer. He suggested this to the farmers of Germany. Now the potash industry is one of the greatest in the world. The useless, bitter stuff became the chief assets of the mines.

Tons of sulphuric acid and arsenic used to be blown out of the smoke stacks of copper smelters, sometimes killing animals and crops on neighboring farms. A scientist built an electric apparatus which collects these poisonous particles out of the smoke smaller. The apparatus is now in use all over the world, and the sulphuric acid, instead of floating out to damage the farms, is used in chemical industry, while the arsenic becomes the chief reliance of the scientists who are fighting the boil-well-wait, which threatens the destruction of the cotton plantations of the southern states.

In like manner we have the story of the botany professor who cleared the western United States irrigation ditches of a weed that was choking them and compelling the farmers to employ a man night and day to clear the intake of the pipe line. "Suspend a few crystals of copper sulphate in the ditches, in little canvas bags," he advised. The weeds died and disappeared in a week. This scientist knew that copper was especially poisonous to that kind of weed. His practical knowledge increased the wealth of the whole irrigated region.

In Saskatchewan a clay-working industry was having trouble with its raw products. One of the professors of the University of Saskatchewan was called in, and as a result of his knowledge, investigations and tests, he found that the correct mixture of clays was not being made. He found a remedy, and the industry is now on a paying basis and expanding its operations.

The battle against rust in wheat and other parasites, the removal of moisture from wheat without impairing its milling and baking qualities, these and other important subjects are receiving the attention of the scientists of Canada, and their solution will mean hundreds of millions of dollars to the farmers of the Dominion.

All of which only goes to demonstrate that every industrial interest in Canada, whether it be in the manufacturing class or in the work of production from the farm, the mine, the forest or the fisheries, should strongly support the present move for larger and more extensive research work in this Dominion. And of all classes, the farmer will probably prove to be the greatest gainer.

Alberta Crop Yield

It is estimated that the crop yield for the southern portion of Alberta will amount to 40,000,000 bushels. It has been estimated that the total yield for Alberta will be in the neighborhood of 200,000,000 bushels, but some officials say that 180,000,000 bushels will be the extent of the yield.

"Little did our grandparents think the day would ever come when the steering wheel would be the family circle."

Shampoo Yourself With Cuticura Soap

Anoint the scalp, especially spots of dandruff and itching, if any, with Cuticura Ointment. Then shampoo with a suds of Cuticura Soap and warm water. Rub thoroughly. A healthy scalp usually means good hair.

Scalp Wash by Maff. Acheson, Deneau & St. John, Ltd., Montreal. Price, 50c. Glycerine Soap. Cuticura Shaving Stick, 25c.

New Match Company

The Columbia Match Company of Canada has taken out a Dominion charter with the purpose of acquiring control of the Columbia Match Company of Cleveland and of erecting and operating a plant in Montreal.

Bing: "What! You and your wife never quarrel?"

Wing: "Well, we haven't quarreled for three weeks."

Bing: "How's that?"

Wing: "We're not on speaking terms."

Honor For Lost Flyers

Monument On French Coast Dedicated To Memory of Nungesser and Coli

A monument honoring the memory of Captain Charles Nungesser and Captain Francois Coli has been dedicated at Etretat, where the French airmen left the coast of France on their ill-spared attempt to fly to New York in May, 1927, in the month ago. It bears the inscription:

"To the First Who Dared."

At the base of the column, which resembles an obelisk, are marble figures, three times life size, representing the two flyers. The monument has been erected on the cliff at Etretat at the point over which Nungesser and Coli in their plane "White Bird" passed on May 8, 1927, before they disappeared in the west. On the base is inscribed the words:

"Nungesser and Coli, May, 1927."

The inscription on the reverse side recalls their attempt.

WEAK AND NERVOUS

A Condition Always Due To Thin, Watery Blood

Thin blood and weak nerves generally are found together. Red blooded people seldom complain of nervousness. The reason is that the blood is thicker and contains more red corpuscles to do the work of oxygenating the body.

When the blood is thin and weak it fails to do its work effectively. The following case will interest those who need a tonic for the blood and nerves.

Miss D. Veno, Union Square, N.Y., was suffering from neuritis. I wrote to tell you what Dr. Williams' Pink Pills did for me. I had become bad-tempered, irritable, nervous, etc., and when I could not do my work, I was not only weak, but my nerves seemed completely shattered.

The least work would startle me and I was easily annoyed. I could sleep only two hours, and then I awoke for the rest of the night. I had to go to bed again when I actually feared I would lose my mind. Up to the time I decided to take Dr. Williams' Pink Pills, I was not able to sleep at all.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 5¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Serve One Customer

Paris Store Opened For Sultan Of Morocco To Shop

One of the world's largest department stores ran full blast for just one customer recently.

St. Moulai Hemady, Sultan of Morocco, wanted to buy a thing or two

and he insisted on doing his own shopping. His wish was a command to the Printemps store in Paris

and for an hour, in the early evening, department store workers

gathered round him, as he

was surrounded by a hand

ful of clerks stood behind counter, scores of floorwalkers were at

attention, and managers and French secret service men peered from behind piles of goods, while the young ruler, with his Grand Vizier, wandered about, buying everything that pleased his eye, leaving it for the Grand Vizier to foot the bill.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant.

Take the Alumit, but there are many signs by which mothers are made aware that a dose of Miller's powder act quickly and will expel worms from the system without any inconvenience to the child.

"I wonder if that old fat girl is trying to flirt with me?"

"I don't know, but I can easily find out by asking her—she's my wife."

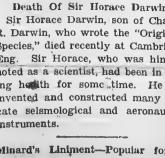

The Mrs. Will Aspirin, almost lame for death to end his suffering. He sees ahead only years of pain unless he is themselves brought with never

ceasing feverish attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him use it faithfully and he will find his asthma a thing of the past.

Death Of Sir Horace Darwin

Sir Horace Darwin, son of Charles R. Darwin, who wrote the "Origin of Species," died yesterday at Cambridge, Eng. Sir Horace, who had been regarded as a scientist, had been in failing health for some time. He had invented and constructed many delicate seismological and aeronautical instruments.

Minard's Liniment—Popular for 50 years.

Transform Cadillac For Railway Service

Canadian Pacific Uses High Power Gyproc Inspection Wagon

A high power Cadillac sedan specially equipped with flanged steel tired wheels has just been issued from the Angus shops of the Canadian Pacific Railway at Montreal for the use of the Engineering Department of the company. Capable of travelling on the rails at as great a speed as upon the road, the machine will be used for inspection trips on C.P.R. lines throughout the country.

Service conditions are harder on trucks for railroads than there are on three systems on the car; the ordinary foot brake operating on the rear wheels, the conventional emergency brake, and a special supplementary brake applied by turning the steering wheel, acting through brakes on the front wheels. The axles have been changed, the front axle being rigid and more rugged, and the rear axle instead of being mounted in conjunction with the differential, has had the differential removed and replaced by a one-piece alloy steel axle. This is driven by a single gear with a ratio of 4 to 1, in place of the ordinary differential ratio of 4 and ten eleventh to 1.

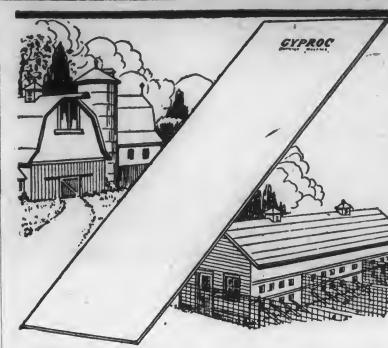

The wheels themselves are of special design and are equipped with rubber insulation between the steel tire and the wheel centre in order to deaden shock at rail joints, switch points, etc.

The lighting system, moreover, has been supplemented to comply with railroad regulations.

The car is a comfortable sedan model and will enable officials of the Canadian Pacific's engineering department to cover great distances in a short time on their inspection trips under any weather conditions.

It is the only machine of the kind at this time officially in the company's service, although other smaller motor cars on rails have been improved in other parts of Canada.

GYPROC Fireproof Wallboard

"Modernize" Your Farm This Modern Way

Nearly every building on the farm can be greatly improved and "modernized" by Gyproc.

This famous wallboard is recommended by leading contractors for both new and old construction because it gives advantages offered by no other material—fire safety, rigid strength, economy and cold and heat resistance.

All these vital advantages! And you get them for nothing—because Gyproc costs no more—and you save none of Gyproc's remarkable qualities.

Gyproc makes durable, permanent walls and ceilings in less time and at less cost. Gyproc Joint Compound, the joints are smooth, flat surface which adds decoration—particularly suitable for Alabaster.

GYPROC Advantages for Farm Buildings

Easy to use.

Low cost.

Workable as lumber.

Cannot warp, bow, crack, shrink or burn.

Takes any decoration.

Resists heat and cold.

Vermic proofer.

Eliminates repairs.

Protects your stock.

Ideal for living areas, poultry, houses, barns, stables, sheds, other farm buildings.

Especially suitable for converting attics into extra rooms.

Radio May Control Street Cars
Radio control street cars may be used when street cars and trolleybuses would be operated by distant radio control, following a demonstration in Chicago in which a surface car was operated by wireless from an automobile.

Ballplayer: "We gave the umpire fifty bucks to let us win the game." Friend: "And still you lost?" Player: "Yeah; the umpire was crooked."

A geographical mile is the length of one minute of latitude.

Humane Society Awards
The following were among the awards given by the Royal Canadian Humane Association recently announced: Medals, David Johnston, Brookside, Saskatchewan; John D. White, Vancouver; John McHugh, Yukon Territory; Margaret Martin, Waterfront Lakes, Alberta. Parchment certificates, Howard Mayers, White Rock, B.C.; Mary and Victoria Barrowman, Kaslo, B.C.; W. H. Herter, Powell, B.C.

Happiness and misery are the names of two extremes, the utmost bounds whereof we know not.

ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache, the action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitation,

PROVINCES WILL CLAIM RIGHTS TO WATER POWER

Ottawa—Dominion and provincial rights to water power will be argued in the supreme court of Canada next week. Recognized as one of the most important questions with far-reaching ramifications which has come before the courts in years the matter undoubtedly will be carried to the Privy Council in England for final adjudication.

Development of the potential water powers of the St. Lawrence, international and provincial in character, development of hydroelectric power on the Ottawa river and a number of other power projects, all these are vitally concerned in the points to be decided respecting Federal and provincial jurisdiction. The case probably will extend over two weeks.

The Dominion government and at least five of the provinces, Ontario, Quebec, Manitoba, Saskatchewan and British Columbia, will be represented.

Ontario and Quebec, through councils, will take the leading part in opposition and will be supported by British Columbia, Manitoba and Saskatchewan, probably also will be heard in argument in answer to the claim of the Dominion.

These provinces, broadly speaking, will contend that the water powers were vested in the provinces before confederation and were not transferred to Dominion Domain by virtue of the British North America Act. A further argument would be formed on behalf of the provinces that the Dominion had no right to these water powers and that any treaty respecting an international waterway must subordinate to the British North America Act.

Saskatchewan has its own legal representative at Ottawa who has already received instructions to appear at the Supreme Court hearing and watch Saskatchewan's interests.

Withdrawing From League Of Nations

Argentine Parliament Is Discontinuing Appropriations To Meet Dues

Copenhagen.—Bert Hassel, American flyer, who arrived here from Greenland with his trans-Atlantic companion, Parker Cramer, announced he would make another attempt next year to fly from the U.S. to Stockholm by way of Greenland. Hassel and Cramer, who were rescued in Greenland after having been stranded in the Arctic wastes, arrived at Copenhagen aboard the steamer Fulton.

They were accompanied by Prof. William H. Hobbs, leader of the University of Michigan Greenland expedition, which had brought them to safety.

Canada Will Be Represented

Ottawa—Canada will be represented at the International Air Conference, which takes place in Washington in December. This was stated officially at the Department of National Defence, where a representative had not yet been selected but an announcement was made later to the selection will be made later. The conference has to do with civil aviation.

Zepplin To Start October 10

London.—Germany's new trans-Atlantic dirigible, Count Zeppelin, will start its first flight to America not later than October 10, says an Exchange Telegraph despatch from Berlin. The generally favorable weather predicted for the North Atlantic during the first two weeks of October makes a start at that time almost certain, the despatch said.

B.C. Cabinet Unveiled

Vancouver.—The nine portfolio holding members of the British Columbia cabinet, headed by Hon. Dr. G. F. Tolmie, premier and minister of railways, were re-elected to the provincial legislature when they were unopposed at nomination proceedings. Voting was to have taken place on October 4, if there had been contests.

Swedish Government Resigns

Stockholm.—The government of Premier Edvard Lagercrantz, of the central bloc, resigned in the outcome of the recent election in which the government party lost several seats, including that of Foreign Minister Loefgren.

Major Of Carlton Dead

Lethbridge—Mayor Mark Spencer, Carlton, pioneer and eight-time enter magistrate of that town, died recently at Rochester, Minn.

Air Mail Service Starts

Toronto—Daily air mail service between Montreal and Toronto, and an international service between Montreal and Albany, N.Y., started October 1.

Does Not Need Warships

South Africa Protected By British Fleet, Says General Smuts

Capetown, South Africa.—Speaking to an audience which was predominantly of Dutch origin, General Jan Christian Smuts, leader of the opposition in the assembly, was vigorously applauded in a memorable speech on the secession question. General Smuts at one point declared: "We will not need warships we would have to go to America or France, or some other big country to protect us because we are not safe. One warship could bring us to our knees. But today we are in a friendly circle with a powerful British fleet to help us if any injustice is planned toward us."

"We need not spend millions on a fleet," General Smuts continued, "but the British have a project of development so necessary to a great country. The British Empire is not a bond tying us, but she is a helping hand."

Cement Firms Protest

Producers Will Contest Move For Removal Of Duty

Ottawa—Contesting the application of the Canadian Council of Agriculture for removal of the import duty on cement, representatives of the cement producers in Canada continued the survey of facts relating to the industry before the tariff advisory board.

In the brief of the Canadian Council of Agriculture, which was filed recently, it was claimed that the prosperous condition of the industry did not justify continuance of the existing import duties. In opening the case for the producers, Senator James J. Jackson, who categorically denied the claims of the appellants. He sought to prove that the cost of production did not leave 57.5 per cent. of the sales to provide overhead and profits, as maintained in the brief of the council of agriculture.

Will Make Second Attempt Next Year

American Pilot Stranded On Flight To Stockholm Via Greenland

Copenhagen.—Bert Hassel, American flyer, who arrived here from Greenland with his trans-Atlantic companion, Parker Cramer, announced he would make another attempt next year to fly from the U.S. to Stockholm by way of Greenland. Hassel and Cramer, who were rescued in Greenland after having been stranded in the Arctic wastes, arrived at Copenhagen aboard the steamer Fulton.

They were accompanied by Prof. William H. Hobbs, leader of the University of Michigan Greenland expedition, which had brought them to safety.

Canada Helps Storm Victims

Ottawa—Hon. Ernest Lapointe, acting prime minister, announces that the government of Canada is subscribing the sum of \$25,000 to the British West Indies hurricane relief committee. Mr. Lapointe stated that the step was taken after consultation with and upon the recommendation of the Canadian Red Cross.

May Appeal To Privy Council

Ottawa—Permit was granted to carry their appeal to the Privy Council in England will probably be given to the Proprietors' Article 19 Assocation, founded by the department of labor to be an association in restraint of trade. The matter, it is stated, is now before the department of justice.

Chinese Soldiers Face Starvation

Shanghai, China.—Generals of the Nationalist army notified Nanking headquarters that 100,000 soldiers are in danger of starving to death in the Chihli vicinity. The message also said the villagers were suffering from lack of food and soldiers were not provided with boots or blankets.

Fighting In China

Peking.—More than 2,000 Chihli Shantung soldiers have been killed opposing the Nationalists northeast of Tien Tsin, says the Kueiuen news service, reporting the surrender of the former Northern army.

Air Mail Service Starts

Toronto—Daily air mail service between Montreal and Toronto, and an international service between Montreal and Albany, N.Y., started October 1.

Does Not Need Warships

Will Analyze Frosted Wheat

Scientists At University Of Saskatchewan Have Started Work

Saskatoon, South Africa.—Speaking to an audience which was predominantly of Dutch origin, General Jan Christian Smuts, leader of the opposition in the assembly, was vigorously applauded in a memorable speech on the secession question. General Smuts at one point declared: "We will not need warships we would have to go to America or France, or some other big country to protect us because we are not safe. One warship could bring us to our knees. But today we are in a friendly circle with a powerful British fleet to help us if any injustice is planned toward us."

"We need not spend millions on a fleet," General Smuts continued, "but the British have a project of development so necessary to a great country. The British Empire is not a bond tying us, but she is a helping hand."

FEDERAL AID FOR HIGHWAYS SHOULD CONTINUE

Regina.—The federal aid for highways should be continued with additional aid to the various provinces directed to the reconstruction of the Canadian Good Roads Association who dealt with many other matters of interest during the sessions here. Elimination of level crossings, building cement bridges and roads, the financial responsibility of urban municipalities in road development, gasoline taxes and winter roads all had their place on the agenda.

Hon. O. L. McPherson, minister of public works for Alberta, was unanimously chosen president of the association and other officers were elected. Seven invitations were presented for next year's meeting place and, while no decision was arrived at Prince Edward Island would seem to be in favor with the delegates.

When the subject of Federal aid for highways was under review the discussions arising from this topic were crystallized in the following resolution:

"Resolved, that in view of the very marked and acknowledged benefit which comes to Canada as a whole because of the large investments being made in the highway construction and maintenance by various municipal and provincial bodies, such benefit being of a far reaching nature and affecting many branches of Dominion government service; and whereas the Federal government has collected in excess of \$200,000,000 during the past 10 years which has been largely turned to highways; and in view of the fact that the Federal government recognizes its interest in highways by a first grant of \$20,000,000, which has been expended; and, in view of the increase in highway travel throughout Canada, this association, in an annual convention assembled, reaffirm its oft-stated belief in Federal aid to highways and that additional aid should be granted at the earliest possible moment to the various provinces and the executive committee is hereby instructed to make every reasonable effort to have this resolution made effective."

Canada Will Be Represented

Ottawa—Canada will be represented at the International Air Conference, which takes place in Washington in December. This was stated officially at the Department of National Defence, where a representative had not yet been selected but an announcement was made later to the selection will be made later. The conference has to do with civil aviation.

Will Make Second Attempt Next Year

Director Of Cancer Research

Dr. Ellice McDonald, shown above, who believes that he can forestall cancer by treating the subject through the administration of thyroid gland extract and other means. Dr. McDonald is director of cancer research at the University of Pennsylvania and the Philadelphia General Hospital. Dr. McDonald is a Canadian who had his early education at Winnipeg and finished it in Toronto. He has three brothers, Brig.-Gen. H. McDonald, C.R.C., D.S.O., of Winnipeg, D. H. McDonald, M.P.A., of Qu'Appelle, Sask., and F. A. McDonald, of Winnipeg.

Attending University Of British Columbia

Percy Williams Will Teach Freshmen's Course In Vancouver

Vancouver.—Percy Williams, Olympic 100 and 200 metre swimmer, will attend the University of British Columbia here for one year. After that he will take the business administration course at the University of Washington. This was decided at a meeting of members of the committee in charge of Williams, who is the first Canadian to win a gold medal in the 1928 games here.

Williams, at present in Seattle, and returned home in order to discuss all angles of his situation with his friends here. He had been invited to attend the Washington institution.

"He is remaining in Vancouver for the year because he feels that it would be unfair to those who welcomed him so wonderfully and who have been so good to him to leave," a member of the committee said.

Expresses Sympathy For Florida Sufferers

King George Cabled Condolences To President Coolidge

London.—King George took a keen interest in world affairs, it is evidenced by the cable sent by him to President Coolidge, expressing his sympathy to the people of the U.S. for the sufferers in Florida.

Anglo-French Naval Pact

United States Government Rejects Agreement In Note Sent To Both Powers

Washington, Sept. 26.—An unqualified rejection of the so-called Anglo-French naval pact, in which both nations agreed to limit armament on naval vessels, was understood to be contained in the United States replies to Great Britain and France which were forwarded to Paris and London.

A separate note for each government was sent the American embassy for transmission to the foreign offices.

It had been expected that one note would be sent to both governments, but it is learned the notes are not identical. In form they are understood to be similar to each other in their essential facts.

It is understood both notes comprise a lengthy discussion of the American stand on naval disarmament with respect to cruisers and submarines. This subject has been the centre of disagreement between the United States and Great Britain, and is held to be the chief subject of the 1927 Geneva conference.

"We are paying, with the help of the British Government and the railways, their passage to their Canadian destination; we are giving them this money so that their start will not be surrounded with so many difficulties encountered by the earlier pioneers and those who today are coming in from non-British countries.

"We are associating ourselves with every good organization, having the British people's best interest at heart, to advance the settlement of British in Canada and we are doing nothing for members of any other nationality who are coming into Canada."

Entertaining Premier King

Entertaining Premier King

Dinner At Savoy Hotel

Percy Williams Will Teach Freshmen's Course In Vancouver

Vancouver.—Premier Stanley Baldwin and the cabinet have been invited to the dinner to be tendered to Premier Mackenzie King of Canada by the Canadian Club on October 10. This will be Mr. King's only speaking engagement in Canada.

Mr. King will speak on the subject of getting about to see the country, and Williams, who is in town at the time, will be invited to the dinner, which will be held at the Savoy hotel.

Forty Killed By Explosion

Powder Magazine In Old Spanish Fort Caused Accident

Mellilla, Morocco.—By an explosion the powder magazine of the ancient Spanish fort of Cabo de Bajuras forty persons were killed and 200 injured, and of them 300 were seriously hurt.

The explosion demolished the old citadel, on a rocky hill overlooking the town. All houses around the citadel were destroyed.

Women and children were among the dead and injured. Nine soldiers of the Spanish garrison at the fort were killed. The government appropriated 25,000 pesetas (\$4,125) for relief of the families of victims.

CAMPAIN IS ON FOR ELECTIONS IN GREAT BRITAIN

Yarmouth, Eng.—The first open

meeting in a nation-wide campaign for the forthcoming British general election, when Prime Minister Stanley Baldwin and his government appeal to the British voters for another five-year mandate, will be made here when 2,600 Conservative delegates, a record gathering of its kind, go into conference to hammer out a party platform.

Within a month from now Conservative, Liberals and Labor, by means of their annual conferences will decide the issues upon which they will wage the biggest party struggle in this country since the Great War.

The most intense fights are expected on tariff questions, the extension of protective measures by means of "safeguarding" of industries by special import duties.

British political strategists are getting ready to adopt new means and methods of appealing to the public.

Close watch is kept on the rapid development of wireless and talking movies. "Talkies" are being made by Baldwin and other political leaders; motor cars and trucks with the latest broadcasting apparatus made ready for swift campaigns through the country districts. The hunt for party songs is on, and again the Conservatives are in the lead with song sheets already issued.

One drollily delicate allusion to the "flapper" vote, that uncertain bloc of five million newly-enfranchised young women for whom all parties are angling, all claiming flapper support, and none too certain of it.

One flapper, British harvester from Liverpool, England, at work in a farming field of Vulcan, Alta.

MAKING EVERY EFFORT TO BRING BRITISHERS HERE

Winnipeg.—That there was no foundation for the claim made by Bishop Lloyd of Saskatchewan at a luncheon here "that there has been and is today a deliberate attempt to keep the British out of Canada," was the declaration made by Hon. Robert Forke, minister of immigration.

Speaking over the long distance telephone from his farm at Pipestone, Man., Mr. Forke said: "We are doing every thing possible to bring to Canada British and we think the willings and ways of working on Canadian farms, no matter what district they come from."

"We are paying, with the help of the British Government and the railways, their passage to their Canadian destination; we are giving them this money so that their start will not be surrounded with so many difficulties encountered by the earlier pioneers and those who today are coming in from non-British countries."

"We are associating ourselves with every good organization, having the British people's best interest at heart, to advance the settlement of British in Canada and we are doing nothing for members of any other nationality who are coming into Canada."

"What else should we do or can we do in all practical common sense that we are not now doing?"

Manitoba Resources

Mr. Justice Turgeon Appointed Chairman Of Commission To Deal With Question

Ottawa, Ont.—Mr. Justice Turgeon of Saskatchewan, who was appointed chairman to inquire into and decide upon the various matters in connection with the return of Manitoba to her natural resources, is in the capital arranging for the organization of the commission.

Mr. Justice Turgeon's colleagues on the commission are C. M. Bowman, of London, Ont., and Hon. T. A. Creer, of Winnipeg. A secretary to the commission will be appointed in a few days, said Mr. Turgeon, and thereupon an organization meeting will be held, probably in Ottawa.

Gate Receipts Cover Expenses

Montreal—Quite contrary to all expectations and customs, the Olympic games at Amsterdam paid for themselves this year. This was learned in an announcement made by the Netherlands consulate here. Official figures are lacking, but it is understood that gate receipts will pay for all monies advanced the Dutch Olympic committee by the government and individual subscription.

Decline In Unemployment

Stockholm.—Unemployment is on the decline in Sweden. Latest government figures, just released, show that the number of people out of work who applied for aid in July was 9,200 as compared to 11,169 in June, or a decrease of about 14.9 per cent.

Support For Gov. Smith

New York—Representative Mary T. Morton, Democrat, New Jersey, in an address broadcast from her, appealed to women to vote for Governor Smith, who she termed "the greatest humanitarian this country has ever produced."

Rain Damages Ontario Crop

Waterloo, Ont.—Heavy rain and continued cold weather are alarming farmers of this district. Scores of acres of grain are said to be rotting in the fields, and potatoes planted on low ground are being ruined by excessive moisture.

Exhibit Of Canadian Fruit

Winnipeg, Man.—Choice Canadian fruit for English exhibition and display passed through Montreal on the way to Manchester and London, being conveyed with special precautions by the Canadian National Express Company.

Enter Novel Flea

Detrola.—A flea that was walking in his sleep when he shot and killed his wife, Amella, has been entered to trial here charged with murder.

France is the only European country whose present birth-rate shows an improvement on the pre-war figure.

Philip, British harvester from Liverpool, England, at work in a farming field of Vulcan, Alta.

Do You Charge?

It costs money to keep books, but many people who purchase goods and have them charged do not realize this, and think they should be able to purchase goods as cheaply as if they paid cash. No merchant can run charge accounts and sell his goods at the same prices as if he were getting the cash right over the counter. No retailer can ever hope to compete with the mail order houses so long as he runs charge accounts, and if he gets into the hole with the wholesalers through giving credit to his customers, then he is finally forced to sell cut or assign. The old-fashioned way of not buying if you have not the money is a good one to follow. It may seem behind the times to advocate this, but without doubt credit business costs more than that transacted on a cash basis, and causes a heap more of worry. A merchant might do less business if he insisted on cash, but his net profits would be greater, and he would be enabled to sell at a lower price.

Here and There

(139)

The absence due to grain handling that the port of Montreal has experienced in this season was registered on August 21st, when delivery of 1,000,000 bushel mark for the 23 hours, and receipts were recorded at nearly 1,500,000 bushels, a total handling of 3,500,000 bushels.—Copied from The Literary Digest.

(137) Grain handlings in the Port of Montreal this season passed the 200,000,000 bushel mark on August 30th, receipts and exports being in balance. Total handlings at that date were 16,253,592 bushels ahead of the similar period of last year.

The almost complete absence of forest fires which have made some serious marine wrecks effective—bright clearness of the air in this region has made the tourist resort the best in recent years. The Alpine Club of Canada, the Alpine Club of Lake Louise, the Alpine Club of Banff, the Alpine Club of Jasper, the Alpine Club of the Hanging Glacier, followed by the Trail Riders of the Canadian Rockies.

Approximately 250 new elevators have been constructed throughout Alberta this year, it is estimated by the board of trade. The capacity of these elevators would be about 18,000,000 bushels. It was stated. Complete figures for elevators were not available, but grain men stated that extension of grain handling had been progressing rapidly in all parts of the province. The capacity of the elevators varied from 35,000 bushels to 110,000 bushels. The Alberta Wheat Board alone has 10 grain elevators, compared with 12 in 1927 and practically all the public grain elevator companies have increased their storage capacity.

For the first season in a number of years the salmon trout may be said to be abundant. Fluctuations in water levels, threatened extinction of this exceptionally game fish, but the catch of salmon in the past three seasons has apparently restored the world's most famous trout stream to something like its old status. Guests of the Bungalo Camp here brought in 125 pounds of fish yesterday, counting 45 fat numbers of four to six pounds each, taken mostly at the entrance to Lake Polley.

Pike and pickerel still abound, in large numbers, so it is thought that the restoration of water level, rather than the destruction of natural enemies has brought back the Nipigon trout.

Entirely new and important schemes involving large expenditures on the part of the Canadian government in the placement of British colonists upon the land, to be undertaken through the Department of Colonization and the Department of the Colonies, working in co-operation with the Overseas Settlement Committee of the British Government. Under Sir Edward Carson, the chairman of the Overseas Settlement Committee, one undertaking provides for the building of 100,000 houses in Canada for Canadian Pacific for the use of British families. They will be used to make families accustomed to the Canadian conditions and farm life before being established on farms of their own.

A six and three-quarter-pound steelhead trout, a monster of its kind, has been caught on the Nipigon River, by Philip L. Peterman of Laurium, Michigan. This catch will go into the Nipigon River Bungalow Game trophy. For record catch of the season, for this competition approach it in size to the winter record holder, never replica of a fish mounted on an oak panel and an engraved gold label attached. Fishing on the Nipigon River has been better than it has been for ten years. The regulation of the water level to prevent flooding has resulted in fish returning to their old haunts, and sport is now as good as it ever was.

Try this method—it may surprise you to find that you can get results so easily.

THE JOURNAL

"It Goes Into The Homes"

DO YOU EVER STOP TO THINK?

(By E. R. Waite, Shawnee, Okla.)
THAT it takes better business to build a city.

THAT better business and prosperity go hand in hand.

THAT a city will grow only as its business concerns grow.

THAT a city is known by the reputation of its real business concerns.

THAT one live business will bring some business to a city.

THAT many live concerns will bring much business to a city.

THAT when all the business concerns of a city are alive and on the job, when they work together to hold their present trade, attract new trade and extend their trade territory, the increase in business for the home city will be surprising.

THAT the stronger their appeal of price, quality, variety and service, the stronger will be the results obtained.

THAT today is the day of keen business competition, a time when the automobile has cut down distance and time to such an extent that people will be attracted to a live city in ever increasing numbers.

THAT cities that are awake are reaching out into new fields and securing business they never had a chance at before.

BUSINESS WORTH HAVING IS WORTH GOING AFTER. IF IT IS NOT GONE AFTER BY YOUR CITY, SOME OTHER CITY WILL GET IT!

A Very Important Question From Whom Do You Buy Milk?

Do you buy from a government inspected dairy, or does your daily milk supply come from a source which is not governed by sanitary regulations—where milk is open to contamination, with its consequent dangerous results to adults and young children? Typhoid fever is commonly caused from a contaminated milk supply, and it is nothing short of a crime to expose young children to the dangers of giving them milk FROM MILK-KEPT BARNs.

THE RESPONSIBILITY lies with parents and civic authorities. They should insist on all milk sold publicly being submitted to government inspection; to see that barns are kept up to the standard of government regulations, and that cows from which milk is sold to the public are free from bovine tuberculosis.

In purchasing from a licensed dairymen whose herds must be kept up to standard, and where the milk supply is safeguarded so that it reaches you free from impurities, you are ensuring the health of your children and yourselves.

You owe it to yourself to exercise the greatest care in purchasing milk.

BUY MILK FROM A DAIRY WHICH GUARANTEES YOU ABSOLUTE PURITY

The latest recruits to the ranks of the internationally known Trail Riders of the Canadian Rockies are three daughters of Ramsey MacLennan, founder of one of Great Britain. They rode from the Chateau Lake Louise to Lake Agnes to qualify for membership.

One of the sheep ranchers of the Crowsdale district is at present in the Canadian Rockies, with his flock of a large flock of sheep on summer range. This is the first year that an independent rancher has made the sheep to go down range for the summer and the experiment is being watched with a good deal of interest.

The first of a new series of engines has left the Angus shops of Canadian Pacific Railway, and will shortly enter passenger service between Montreal and Toronto. It is the largest passenger locomotive ever built, being 69 feet in length, weighing 42,000 pounds, and has eight great driving wheels, each four inches in diameter. It is an entirely Canadian product, designed by Canadian Pacific engineers.

Fifteen flying clubs have been formed in Canada since May when the Government's plan to encourage flying was put into effect, while application for two more clubs are at present being considered by the Air Board. Over 1,000 members of the clubs are in use throughout Canada, Air Board officials stated. Half of these are privately owned. More than one thousand members of the clubs are solo fliers.

A resolution petitioning the Canadian Daily Newspaper Association to hold its 1929 convention in the Maritime Provinces was passed at Maritime Club dinner meeting of the Ontario Provincial Daily Newspaper Association on held on board the Canadian Pacific ship "Keweenaw" en route from Port Huron to Sault Ste. Marie. F. H. Leslie, president of the association, referred in his speech to the ardent wish of the association to have its 1929 convention in the Maritimes.

The world wide service proclaimed by the Canadian Pacific Railway will be further improved with the establishment of a new hotel by the Empress of Canada Hotel Co. So great a variety of Canadian and American travellers between this continent and England has been brought up by Canadian Pacific Steamships that the construction of a new hotel in the heart of the Empire has been considered for some time past. The new hotel will be on Royal York St. is well n't, or way the project has been taken in hand. Operators should start next year.

Recently it was decided that fish are sensitive. Now it is discovered that salmon are sensitive to men who were caught and carefully transported alive overland to the foot of a tall ladder leading down into the salmon's territory refused utterly to leave their native waters. As soon as they were released into the water, according to the newspaper, by the Great Northern Department of the Canadian Pacific Railway, they beat a hasty retreat down the Columbia river, the point being that they were caught and ascended another tributary rising in New Brunswick.

A number from here intend going to Pincher Creek to morrow evening for the Eastern Star Lodge gathering.

FOR THE SKIN!

WORLD HAPPENINGS BRIEFLY TOLD

Old Age Pension legislation for Ontario is not likely to be enacted next year, but will be one of the government's main planks in its coming election campaign.

Baron von Huenfeld, German flier, who stopped over at Constantinople on his flight from Germany to San Francisco, revealed that Germany is planning an air line to China.

A fitting ceremony marked the unveiling of a granite cross at Ile aux Coudres, Quebec, commemorating the first mass ever said in Canada by Jacques Cartier, September 6, 1535.

General Umberto Nobile has announced he would go into seclusion at the home of a friend in Naples soon to write the complete story of his recent Polar expedition.

An all-Canadian telephone service, Winnipeg to Montreal, has been established via Port Arthur and Fort William, a distance of 1,600 miles. Heretofore, a connection between these points had been made through the United States.

The Department of National Defence, Ottawa, has placed an order with the British firm of Armstrong-Whitworth for five Siskin fighting planes to cost \$130,000 each. This will bring the government fighting planes to thirteen.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand. For the tiny ones there is nothing to equal them in keeping children well. The Tablets are a mild laxative and carminative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and grippe and others making getting easier. Concerning them, Mrs. Sabatine Peltier, St. Dumas, Que., writes: "I have used Baby's Own Tablets for the last ten years and have never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Automatic Gear Shifting

New Device Developed In England
To Solve Motor Troubles

The London Daily Mail says that a "motoring development of first rate importance" in the form of an automatic gear-shifting device has been adopted by many of the leading British manufacturers after successful tests over 50,000 miles.

By this device a driver moves a pointer on a quadrant on his steering wheel to the desired speed designation, steps on a pedal, and the gear changes automatically, smoothly and silently."

"Well, Polly, how do you like your new teeth?"

"I half like her and I half don't like her. But I think I half don't like her."

Woman Strengthened by
Taking Lydia E.
Pinkham's Vegetable
Compound

Port Colborne, Ont.—"After being in operation, I was very miserable and weak, nervous and tired. I went to work, I saw Lydia E. Pinkham's Vegetable Compound advertised and tried it and believed it helped me won-

derfully. I feel safe now. Lydia E. Pinkham's medicines have helped me wonderfully."—Mrs. W. H. BECHTELLE, Box 143, Port Colborne, Ont.

W. N. U.—1733

WILL FILL IMPORTANT ROLE

Britain's First High Commissioner To Both Governments

Sir William Clark, who has arrived in Canada to serve as Britain's first High Commissioner to this country, will fill a very important role and one which gives promise of being valuable to both countries concerned. As Sir William himself has declared, he will serve as an additional channel of communication between the Ottawa and London governments, "two governments," he adds, "serving equally the same king and governing nations within one and the same Empire."

Britain's High Commissioner to the United States will be given important advice to the British Government on a number of matters that will inevitably arise. There is, for instance, the question of immigration. The question of British immigration into this country is perhaps the most important one so far as the two governments are concerned. The new British High Commissioner, who is a trained observer of all economic questions, should be in a position to advise the British Government as to Canada's policy of absorption, as to just what type of immigrant this country requires; indeed he should be in a position to advise with accuracy, and with a full knowledge of all aspects of the situation, both the British and Canadian Governments on this important question.

In fact, it is just possible that this new link between the two countries will have been created just as it is necessary to render a problem no longer a problem.

On other matters, too, Britain's High Commissioner to Canada should be of distinct service. Sir William Clark gives promise of being an ideal man for the post and Canada will welcome him heartily in her shores,

An Interesting Collection

Figureheads Of Old Warships Can Be Seen In England

At Castle's Yard, Millbank, England, is preserved the most complete collection of figureheads of old wooden warships—some of them dating back to Nelson's time—extant in England today.

There have been figureheads from the Hood, Cressy, Bristol, Collingwood, and many other famous ships, carved out of timber and painted and gilded by men who were artists in their craft.

One very fine example is the Highlander that once belonged to H.M.S. Edinburgh. Another is a gigantic head of the Duke of Wellington, measuring nearly four feet from forehead to chin. The ship on which this figurehead was launched on the day the Iron Duke died. Another interesting exhibit came from the Fighting Temeraire, Turner's famous picture of which hangs in the Tate Gallery near by.

NEW BEAUTY FOR YOUR CLOTHES By Mae Martin

You can look attractive and stylish on less. You can give new beauty and added individuality and charm to your clothes by the quick magic of tinting and dyeing. Perfect results are possible with the new Diamond Dyes. Each package represents the perfection of 50 years of dyeing experience.

British Columbia Apples

Will Be Marketed In New Way
From Pacific Coast to Coast

British Columbia apples are now going to be marketed in an up-to-date way from coast to coast in all the larger cities of Canada. It is announced by W. M. McClellan, general manager of the Eden Apple Service, a subsidiary of the Associated Growers of the Okanagan, following meetings with Victoria and Vancouver wholesalers. Under the new plan British Columbia apple service stations will be established in all the chief cities where apples will be kept cool and in best condition. British Columbian apples will be distributed from these stations in a new style, half dozen and dozen cartons for the small buyer. All selling will be done through retailers, who will be supplied daily.

New Government Station At Saskatoon To Be Ready For 1929 Crop
Dr. J. H. Criddle, Deputy Minister of Agriculture at Ottawa, following a visit to Saskatoon, stated that it was the intention of the Federal Government to establish shortly at the latter city a seed cleaning station similar to that operated at Moose Jaw, and that he hoped the new station would be operating in time for the farmers to take advantage of it for the 1929 crop.

Holloway's Corn Remover takes the corn out by the roots. It is simple and prove it.

Our National Buffalo Herd
Buffalo National Park, with an area of 197,500 square miles, is home of Canada's national buffalo herd, being a little over 5,000 of these animals now in the park. Moose, elk, mule deer, antelope and yak are also in the park.

AMONG THE ARMS, MUNITIONS, etc., which Germany has either handed over to the Allies or destroyed are 14,000 aeroplanes, 315 submarines, 82 torpedo boats, 6,000,000 rifles and small arms and 107,000 machine guns.

Bienfait Lignite Coal
Approximately half a million tons of coal were produced from the Bienfait lignite coal fields last year, and it is expected that a similar amount will be dug during the coming winter months.

First Film Actress—"Aren't you satisfied with your husband?"
Sister—"Yes—but unfortunately he's not mine."

Oil is obtained from coal in a plant now in operation in Germany.

Lesson: Acts 19:1-41; Ephesians 4:16.

Devotional Reading: Ephesians 3:14-21.

Explanations And Comments

The Forfeited Chance, Acts 19:5, 9.

On his third missionary journey Paul came to Ephesus, where he followed his custom of preaching first to the Jews, and then to the Greeks. For three months in the city he taught the people and reinforced the progress of religion and advanced the cause of Jesus—teaching, but instead of heeding his message, the Jews hardened their hearts against some of them even spoke evil of "the Way" used as a synonym for Christianity; recall Acto

Indigestion

What most people call Indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is to take a dose of Phillips' Milk of Magnesia. For the 50 years since its invention, it has remained popular with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

THE CRIMSON WEST

CHAPTER II.—Continued.

The next day, dressed in light clothing and a pair of running shoes, Donald went around Stanley Park. Walking to and fro, he told himself, he ran the greater part of the way.

Springs comes early in Vancouver as compared with the East. In January the buds are bursting in Stanley Park. The balmy sea air, scented with earthy odours from the deep woods, seemed to Donald to possess magic properties. The blood sang in his veins. Overhead, big white sea-gulls screamed and soared; squirrels retreated in chattering flight as he raced down the hill. All over the world was the sound of the bounding deer. The wind rushed past his ears, and he shouted loud from sheer exuberance of spirits and the joy of living.

Donald covered the distance from English Bay to Granville Street at a jogging trot. The air of the gymnasium seemed close after being in the open. The big Australian fighter was in the ring with one of his sparring partners. The slap of gloves was like music to Donald's ears.

"Come on," he commanded Andy as he led him to the dressing-room where he quickly shifted to fighting togs and then walked over to the ring.

A crowd of boxing-fans sat by the ring-side watching the big fellow work out. Donald's entrance caused a stir. His lithe, muscular body was the attraction of all eyes.

"Op in," commanded Andy.

While an attendant was adjusting on his gloves, Donald took a deep breath as he waited to begin. He would weigh at least two hundred pounds. His shoulders were enormously broad and square, and the muscles of his arms stood out in knobs and bunches. His face was a pasty colour, as though his training had been done inside. His jaw was square and strong, his eyes a mild blue, and his nose looked as though it had stopped many a solid punch. "Strong but slow," Donald declared.

When Andy introduced him, Hagen merely grunted. To the fighter Donald was simply one more punching-bag.

Donald turned to Andy. "What do you want me to do?" he asked.

"Oh, knock the blighter out of the ring," rejoined Andy, with just a touch of sarcasm.

"Do you mean that?" queried Donald quickly.

Andy nodded.

Hagen came to the centre of the ring, assuming an awkward crouch, his arms wound about his face. Don-

the promoters for appearance. I'll lose the 'ole lot.' He threw out his arms with an air of resignation and sank back in his seat.

Little Andy presented a pitiful figure as he sat hunched in the corner of the tiny manager's booth, head, usually held high in a stately angle, sunk on his chest. Gloom, deep, impenetrable gloom, enveloped this bright spirit from the Antipodes.

Donald knew now that for all Andy's magnificient manner of yesterday, the three dollars to "eat on" and the sorely needed dinner he had bought, had come from a generous heart, but a depleted purse. Here was his benefactor in trouble, now unable to help him? He crossed the room, sat beside Andy, and placed his hand on the little man's arm.

"Andy, take me on. I'll fight Garreau for you."

Andy came to his feet with a jump and seized Donald by the shoulders. "You'll do that, me lad, I'll be your pal for life. Strike me pink, did you 'e that? I've got a real fighter at last! 'Ooray!' The little fellow was in ecstasy, shouting clear. 'Garreau up,' he went on excitedly, 'and then I'll tyke you to the station, and then to Austria, and—'"

"Hold on," interrupted Donald laughingly, "looks like you intend making a professional pup out of me. I'm doing this to help you, Andy, and—" flushing in spite of himself, "I'm broke."

Andy glanced over Donald's tall figure with a professional eye. "You ave a weak to get fit, and 'ave you aven't had a good night's sleep? You should be top 'oe in that time."

"May I talk with you?" asked Douglas eagerly.

"Glad to have you," replied Donald. A few minutes later the young man stepped to the street. Douglas scurried both to go.

"Will you come to my home for dinner?" he invited.

Donald hesitated. It seemed ages since he had entered a private house. He glanced down at his only shirt, which was rather seedy, then looked up to find the usually roguish eyes of his companion fixed upon him seriously.

"Thanks, old man. I hope I may have the pleasure at some time, but I can't do it now."

"You said you were broke," began Douglas, hesitatingly. "Can—I—"

"No, no, I'll see you tomorrow," interrupted Donald, turning abruptly and walking swiftly down Granville Street.

Douglas stood watching him until he disappeared. "A mighty good sport," he said softly.

(To Be Continued.)

Farmers Rebel Against Soviets

Growing tension between farmers and the Soviet authorities, mainly in consequence of the requisition of grain, is reported by persons arriving from the Ukraine South Russia. Dis-satisfaction has resulted in open insurrection. Soviet houses have been set on fire and Soviet agents roughly handled.

Good Roads Necessary

One Thing Country Cannot Afford

"RED ROSE TEA"

Reduced in Price

Lower Markets for good medium quality teas enable us to reduce the price of GREEN LABEL Red Rose Tea from 80c. to 75c. per lb. package, and to 38c. for the $\frac{1}{2}$ lb.

The new prices will apply on stocks now on hand in the stores, as arranged with all the merchants who sell Red Rose Tea.

RED ROSE TEA is put up only in Clean, Bright Aluminum Packages. The very best container for good quality tea.

But due to an increasing demand the world over, the markets for extra fine quality teas, such as RED ROSE ORANGE PEKOE, are higher rather than lower—so we regret we cannot make any reduction in this grade at present.

Loch and Leopold Eligible For Parole In Six More Years

An error in mittimus under which Richard Loeb and Nathan Leopold, Jr., were sent to the Joliet penitentiary four years ago makes these two slayers of little boy Frank Murphy eligible for parole in six more years, Hinton Clabaugh, chairman of the state board of pardons and paroles, has stated.

Clabaugh spoke of Loeb and Leopold as "men of wealth, who are pampered pets in Joliet."

These men, each under life sentences for kidnaping, are building up "fine records," Clabaugh said, with a view to securing parole when, because of the error in the mittimus, they became eligible within six years.

One is private secretary to the first warden. Clabaugh said, "While the protestant chaplain, yet Leopold is generally believed to have been the brains of the prison outbreak a few months ago which has cost so far several innocent lives and resulted in the hanging of three men."

Personal and Local

D C Robert caught a fine specimen of the celebrated rainbow trout in Crows Nest Lake measuring eleven inches in length.

Bagpipe music was broadcast recently. Lots of people, says the Passing Show, took their sets to pieces in an endeavor to locate the trouble.

Mr. and Mrs. Chas. W. MacKinnon entertained over a hundred friends and acquaintances at a dance last evening in the K. of P. hall. Over a hundred guests were present from Coleman, Blairmore, Hillcrest, Macleod and Lethbridge, and a splendid program of music was furnished by Mrs. Salt's orchestra. Dancing commenced shortly after 9 o'clock, and with a half hour's intermission for refreshments continued till after 2 o'clock. The guests were delighted in having spent such an enjoyable evening, which went with a jolly swing from start to finish.

The Hunting Season Brings Fire Trouble

Six thousand Canadian fire rangers have appealed through the Canadian Forestry Association for active co-operation this fall in their effort to stamp out forest fire losses which in the past bedeviled lumbermen who occasioned. The official records show that Canada's most disastrous forest fires have occurred during the Fall season.

So far this year forest rangers have taken advantage of a favourable season to make their services more effective by working constantly on the building of trails, lookouts, etc. The veteran ranger takes the keenest pride in his own individual forest over which he may have stood guard and fought to protect for 15 years or more. In face of the Fall Lazarus from hunters, the following simple rules are suggested:

1. Matches. Be sure your match is out before you throw it away. Matches have heads, but they can't think. Do it for them. Break your match before you drop it.

2. Tobacco. Don't throw glowing tobacco from a car into the inflammable material by the roadside. If you simply MUST get rid of these, it is less dangerous to drop them in the centre of the road.

3. Making Camp. Build a small camp-fire. Build it in the open, not against a tree or log. Scrape away the debris from all around it.

4. Bonfires. Never build bonfires in windy weather or where there is the slightest danger of their escaping from control. Don't make them larger than you need.

5. Fighting Fires. If you notice a small fire starting, try to put it out. Larger fires should be reported immediately.
